DETAILED ACTION

Status of claims

1. This is in response to applicant's amendment and response filed March 5, 2007, in which claims 18, 22-37 and 41-49 have been deleted and claims 1-17, 19-21, 38-40 and 50-52 are pending.

After further search and examination of the present applicant and in view of the amendment and response, claims are found to be in condition for allowance.

Allowable Subject Matter

Claims 1-17, 19-21, 38-40, 50-52 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: the prior art of record, transmitting a jamming signal from the external blocking device to jam the communications between the implantable medical device and the external communications device, wherein the jamming signal is selected to target a particular frequency range selected for use in the communications between the implantable medical device and the external communications device; and using the jamming signal, jamming communications between the implantable medical device and the external communications device to prevent data transfer between the implantable medical device and the external communications device. These limitation, in conjunction with all other limitation, has not been discussed, suggested or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
